

## Fire Plan

## What to do if there is a fire

## **Escape Plan...**

- Keep calm and get out quickly, do not waste time investigating.
- Do not collect valuables on your way out.
- If possible get everyone out using your escape plan.
- If there is smoke keep low where the air is clearer.
- Before you open the door check if it is warm. If it is, do not open it, fire could be on the other side.

## If your escape is blocked...

- Get everyone into one room, ideally with a window and a mobile phone. Call 999.
- Use any materials such as: bedding, pillows or towels etc... to place around the bottom of doors; this will help block out any smoke.
- Open any available windows and shout "HELP FIRE".
- If you cannot open any windows, break the glass in the bottom corner and make any jagged edges safer with a towel or a blanket.
- Wait for the Fire Service to arrive.

Do not tackle a fire yourself – GET OUT, STAY OUT AND CALL 999
